

LARGE ANIMAL VETERINARY CARE FOR SOUTH JERSEY IS HERE**SERVING SOUTH JERSEY**

This service covers all of Atlantic, Camden, Cape May, Cumberland, Gloucester and Salem counties.

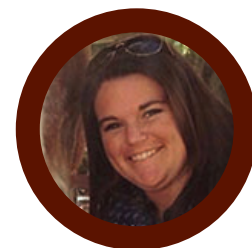

VETERINARY CARE FOR LIVESTOCK AND BACKYARD PETS IS IMPORTANT

All large animals should be seen by a veterinarian at least once a year. This preventative care can help catch subtle changes before they become a problem. These annual visits also help establish a veterinary-client-patient relationship that makes access to care in an emergency situation that much easier.

THE LARGE ANIMAL FIELD SERVICE IS READY TO SERVE YOU

The Shreiber School of Veterinary Medicine now offers a Large Animal Field Service. Our Fear Free certified veterinary team delivers care throughout the South Jersey area providing:

- General preventative care
- Internal medicine specialty services
- Sports medicine
- Field surgery
- Emergency care
